

Interfor Stud Lumber

Interfor is one of the top producers of Studs in North America. Our high-quality Studs are made from the strongest softwood species in the Pacific Northwest — Hem-Fir and Douglas-Fir. All of our Stud grades meet exacting quality and performance standards every time.

INTERFOR STUD LUMBER

BEST FOR QUALITY & PERFORMANCE

Interfor offers Studs in grades that meet the demands of a broad customer base. The top grade, High Quality (HQ) Stud Grade, complements our High Quality (HQ) Dimension Grade, allowing only pencil wane, limited warp, no sap stain and reduced end splitting. Making it the first choice for high end retail and building centers. Our 2&Btr grade delivers quality and value.

Douglas-Fir is one of the strongest softwoods, and a preferred species for structural purposes. Western Hemlock — used in the Hem-Fir species combination — is a hard, strong softwood, making it a great choice for framing.

BEST FOR ENVIRONMENT

Wood from responsible sources is by far the best building choice. Our Studs come from forests in Washington and Oregon that meet Interfor's high environmental standards.

TECHNICAL SPECIFICATIONS

SPECIES	IMPERIAL SIZE <i>nominal inches</i>	IMPERIAL SIZE <i>actual inches</i>	METRIC SIZE <i>(mm)</i>	LENGTH <i>(feet)</i>	SEASONING	PACKAGE SIZE	GRADES
