Who is Interfor?

With operations across North America—in British Columbia, Ontario, Quebec, Washington, Oregon, Georgia, South Carolina, Louisiana, Alabama, Mississippi, and Arkansas—Interfor is one of the world's largest lumber manufacturers. We strive to build value every day while adhering to the highest safety and sustainability standards.

OUR CORE VALUES

We conduct ourselves with honesty and integrity.

We respect, value and engage our employees.

We embrace world-leading safety and environmental standards.

We are strategic, fact-based and proactive.

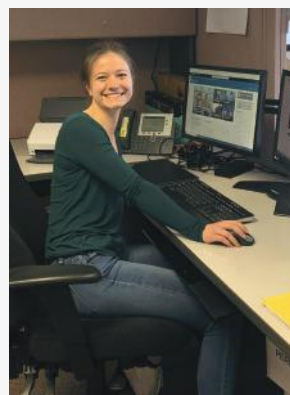

We strive for excellence in everything we do.

We are responsible for our own success.

What do our people have to say?

My favourite part of my co-op experience has been the variety of things that I have gotten to do as an HR co-op. Working in a mill myself, I get to see every kind of aspect of human resources. I'm not just doing one specific task, but I'm part of the bigger picture for our mill."

- SAVANNA PAGEL

"One of the things that surprised me about working at a sawmill was the amount of technology that goes into it. The amount of automation and innovation, the scanners, the optimizers make it an interesting place to work."

- GINO LEONE

INTERNSHIP & CO-OP PROGRAM

Who are you?

EDUCATION

We believe in diversity of thought and encourage students from all disciplines to apply. If you are working hard to complete a post-secondary degree, we can teach you sawmilling.

PERSONAL

We seek out people who want to lace up work boots and be on their feet. If you enjoy small town living and feel good about making a product you can hold in your hands, opportunity awaits at Interfor.

PROFESSIONAL

We respect, value and engage our employees. We are looking for people who demonstrate our core values through their actions and show an ability to lead teams.

Interfor has a plan to **unleash your potential.**

INTERNSHIP & CO-OP PROGRAM

SAWMILL OPERATIONS

Safety, Quality Control & Production Technician

Gain hands-on experience in various parts of the mill and be responsible for collecting data, performing analysis, and providing recommendations for manufacturing improvement projects in areas of continuous improvement and optimization.

Maintenance Technician

Work to ensure the safe maintenance, repair, or replacement of equipment and systems, and be responsible for providing recommendations for maintenance improvement projects to increase efficiency and reduce downtime.

Capital Projects/Process Controls

Work with Interfor's Capital Projects team to provide technical expertise in machine automation, controls, and electrical systems, and drive continuous improvement in mechanical and electrical systems and process controls to enhance efficiency, quality, and safety.

WOODLANDS OPERATIONS

Procurement (US Operations)

Work with Interfor's Foresters to assist in wood procurement, including providing support for log procurement activities at the sawmill, and ensuring our logging operations are achieving quality standards.

Planning Assistant (BC Operations)

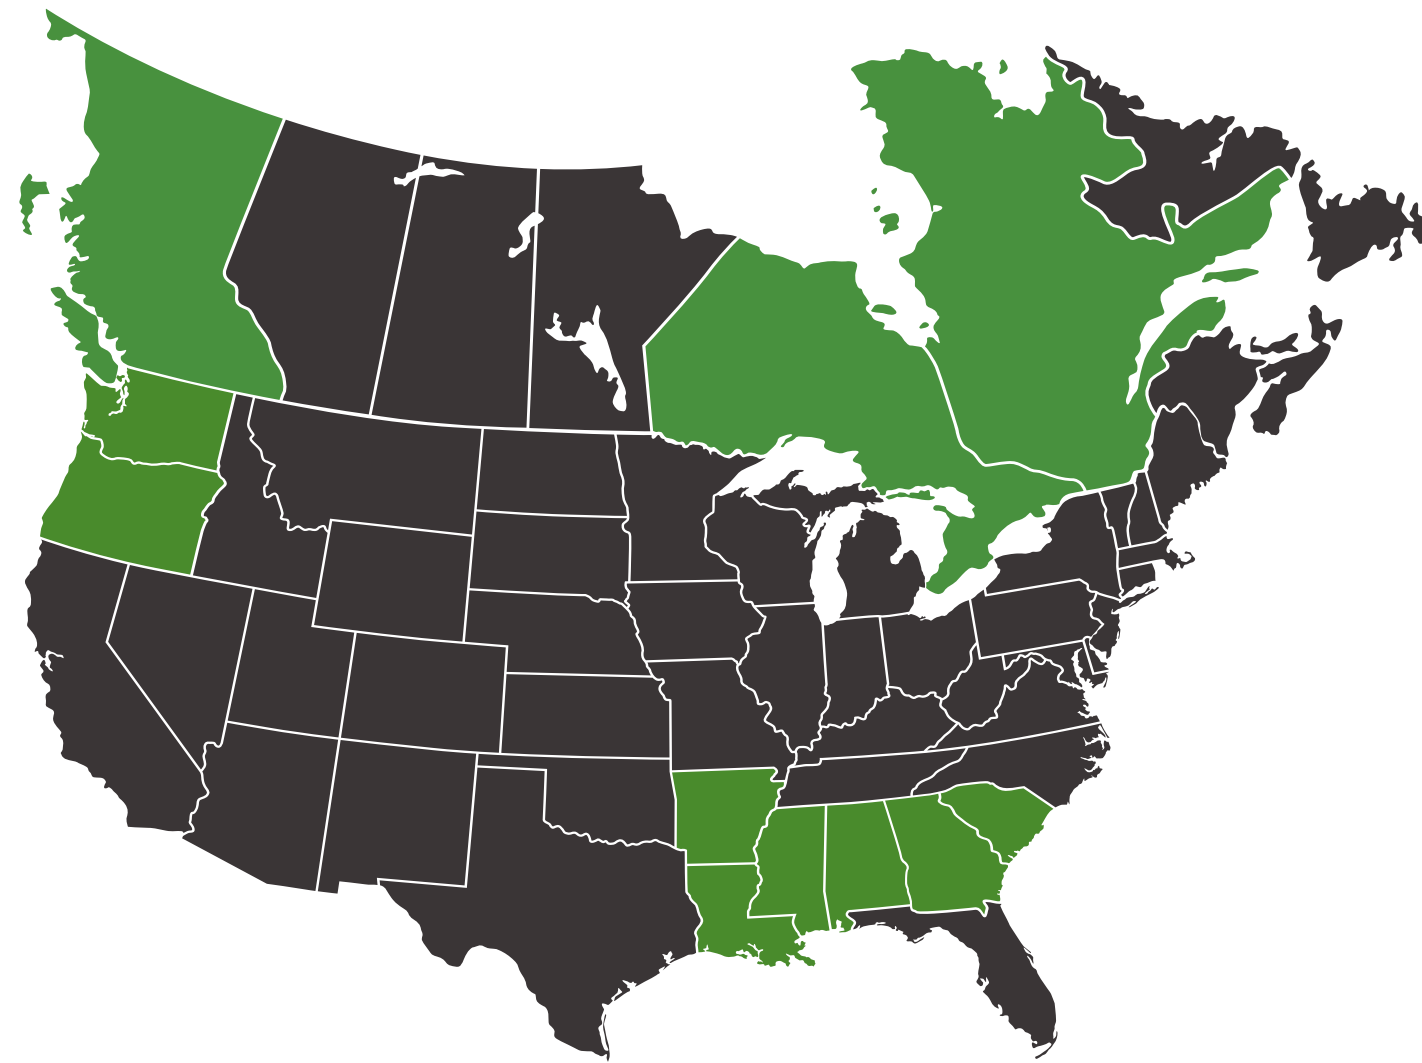

Work with our Interior Woodlands team on a variety of timber planning duties, including assisting with the operational planning and implementation of harvesting and road construction programs relating to Interfor's various forest tenures in BC.

Summer Engineering Assistant (BC Operations)

Work in the office and remote camps with our Coastal Woodlands team to assist with timber evaluation, road location, road design and cut block layout, resource assessments, operations mapping, and preparation of road construction/harvesting packages.

Silviculture Assistant (BC Operations)

Work in the office and remote camps with our Coastal Woodlands team to assist with tree planting supervision, post-harvest prescriptions, silviculture surveys, geospatial database updates, and other silviculture activities.

BUSINESS SERVICES

Information Technology

Work with the IT team to assist with various projects and activities in the different IT groups including quality assurance, networking, applications, and service desk to support initiatives across the company.

Sales & Marketing/Logistics

Responsible for providing internal and external customer service, as well as order file management, inventory maintenance, and other sales and logistics related administration functions for your assigned markets or mills.

Human Resources

Gain exposure to various areas of HR within corporate and operationally, supporting HR projects and initiatives across the region, and assisting with full-cycle recruiting.

Accounting

Responsible for preparing general accounting and accounts payable entries, assembling financial management reports and statements, and ensuring the accurate and timely recording of financial transactions according to accepted policies and procedures.

FAQ

Do I need to be a part of my school's co op program to work as a student at Interfor?

Although we have hired students that are a part of their school's formal co-op program, this is not a requirement to work at Interfor in a student position. We are open to considering students from all years and programs!

Does Interfor help students with relocation expenses?

Yes! If you are a student that is interested in a position that requires you to relocate, we are willing to assist you with relocation and living expenses in the form of a monthly relocation and living allowance.

What is the best time to apply to a student position at Interfor?

We typically hire for a summer term that can go from 4 to 8 months, but we are open to flexible start times based on student availability. If you are interested, speak to one of our campus recruiters.
