

INTERFOR®

ELITE WESTERN RED CEDAR

Sound Tight Knot Redefined

ABOUT US

With operations across North America and customers around the globe, Interfor is now one of the world's largest lumber providers. With annual capacity of approximately 5.2 billion board feet from world-class facilities, we serve the needs of customers, strengthen local economies and build value for our employees and our shareholders

OUR PROMISE

We build value for:

CUSTOMERS by delivering quality products “on spec and on time.”

SHAREHOLDERS by providing attractive returns on their investment.

EMPLOYEES by providing a career where they can contribute, grow and prosper.

COMMUNITIES by supporting a healthy economy and environment.

INTERFOR ELITE

Our Interior Elite family of Western Red Cedar products enables the homeowner to revision wood design by bringing together the classic charm of Cedar and the fiber quality of Interfor's BC Interior wet belt fiber. The rich and consistent brown hues that make up our Elite helps builds timelessness into our building solutions, transforming our homes into the space that sustains us.

Interfor Elite Sound Tight Knot Cedar is the “gold standard” for projects around the world. The reason is simple – it is the perfect material.

Spectacular look, ease of working, natural durability and the ultimate stability. Whether as a standalone or in combination with rock, metal or stone, Elite Cedar products infuse our lives with a piece of the natural world. After a busy day in our modern world, come home to the beauty and reverence of Interfor's Elite Cedar.

WHY INTERFOR ELITE

One of the most popular trends in home development today is outdoor living. Homeowners are expanding their living spaces to include the outdoors, building versatile living spaces that feature everything from quiet places to read, to fully functional outdoor entertaining spaces complete with kitchens and dining. No matter how ambitious your plans are, connecting with and developing your outdoor oasis is a great way to enhance the value of your home and add pleasure to life.

Energy efficient (natural thermal insulator)

Lightweight, easy to install and versatile

WHY WESTERN RED CEDAR

Western Red Cedar delivers beauty, rich color, and exceptional building properties. It is dimensionally stable, lightweight, strong and versatile. Properly finished and maintained, it ages gracefully and lasts for years. It is also the environmental choice—it's a renewable resource and Western Red Cedar's natural oils act as a preservative protecting against decay and insects, so harmful chemical treatment is not needed.

QUALITY

At Interfor, we strive for excellence in everything we do. Our manufacturing and quality control are no exception. Produced in our world-class facilities, Interfor Elite Cedar products meet standards of consistent manufacturing excellence.
