Who is Interfor?

With operations across North America—in British Columbia, Ontario, New Brunswick, Washington, Oregon, Georgia, South Carolina, Louisiana, Alabama, Mississippi, and Arkansas—Interfor is one of the world's largest lumber manufacturers. We strive to build value every day while adhering to the highest safety and sustainability standards.

OUR CORE VALUES

We conduct ourselves with honesty and integrity.

We respect, value and engage our employees.

We embrace world-leading safety and environmental standards.

We are strategic, fact-based and proactive.

We strive for excellence in everything we do.

We are responsible for our own success.

What do our people have to say?

"As a Sawmill Operations Trainee, I was able to learn the lumber manufacturing process with hands-on experience in every department. I enjoyed my time with each of my mentors and trainers, but the process that was the most exciting to me was the sawmill. It takes a lot of technology and teamwork for a sawmill to run and I am glad that Interfor gave me the opportunity to be a part of their team."

- AARON TODD

"Interfor is one of the best companies that I have worked for so far. They not only provide you with endless opportunities but also invest in your professional career. The complexity of a sawmill goes beyond turning logs into dimensional wood, it integrates technologies that provide real-world solutions that impact your local community while promoting safety and efficiency."

- LEO MARTINEZ

INTERFOR CAMPUS PROGRAM

Who are you?

EDUCATION

We believe in diversity of thought and encourage students from all disciplines to apply. If you are working hard to complete a post-secondary degree, we can teach you sawmilling.

PERSONAL

We seek out people who want to lace up work boots and be on their feet. If you enjoy small town living and feel good about making a product you can hold in your hands, opportunity awaits at Interfor.

PROFESSIONAL

We respect, value and engage our employees. We are looking for people who demonstrate our core values through their actions and show an ability to lead teams.

Interfor has a plan to **unleash your potential.**

1 GET HIRED

Campus Recruitment Selection

Interfor has a plan to unleash your potential and launch your career. We are on campus every fall looking for motivated students who are interested in becoming future leaders.

Partner schools
We partner with schools to showcase opportunities across all our operations.

Campus recruitment events
Attend an event at your campus to learn more about Interfor and our campus program.

Application
Complete your application at www.interfor.com/careers and indicate your preferred location.

Student interview day
Have the opportunity to meet members of our leadership team and complete virtual or on-site interviews.

Offer
If there's a match, you will receive an offer letter within a week of your final interview.

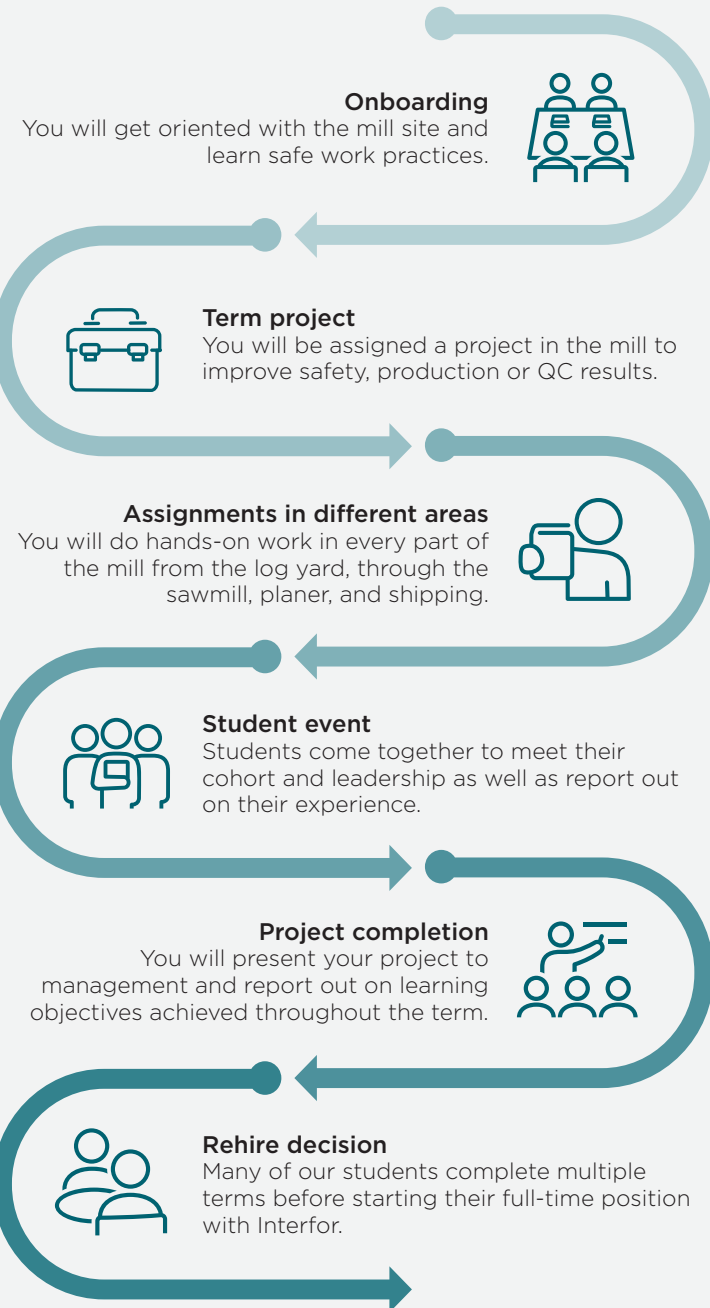

Pre-employment activities
Complete pre-employment screening and prepare to start your internship.

2 TRY IT OUT

Internship Program

This program focuses on completing hands-on work to build value for the company and develop your skills and knowledge—each student has a mentor and a defined term project.

3 START YOUR CAREER

Sawmill Operations Trainee Program

This program blends online coursework with the opportunity to apply your knowledge in a practical way on the job. The program passport guides you as you learn what you need to know to be a future leader at Interfor.
