

Investor Presentation

August 2026

interfor.com | TSX : IFP

Forward Looking Information & Non-GAAP Measures

Forward-Looking Information:

This presentation contains forward-looking information about Interfor Corporation's ("Interfor" or the "Company") business outlook, objectives, plans, strategic priorities and other information that is not historical fact. A statement contains forward-looking information when the Company uses what it knows and expects today, to make a statement about the future. Statements containing forward-looking information in this presentation, include but are not limited to, statements regarding production capacity, facility restart plans and ramp-up timelines, pro-forma capacity, expected earnings and returns, pro-forma debt ratios, liquidity, borrowing capacity, regulatory approvals and other relevant factors. Readers are cautioned that actual results may vary from the forward-looking information in this presentation, and undue reliance should not be placed on such forward-looking information. Risk factors that could cause actual results to differ materially from the forward-looking information in this presentation are described in Interfor's annual Management's Discussion & Analysis ("MD&A") under the heading "Risks and Uncertainties", which is available on www.interfor.com and under Interfor's profile on www.sedarplus.ca. Material factors and assumptions used to develop the forward-looking information in this presentation include the impact of general economic conditions; demand for products and price volatility; softwood lumber trade between Canada and the U.S.; the tariffs and other trade measures recently enacted or proposed by the U.S. administration, and the potential for further escalating trade measures between the U.S., Canada and other jurisdictions, as well as the applicability, scope and timing of any such measures; availability and cost of logs; availability of credit; competition; currency exchange sensitivity, such as changes in the value of the Canadian dollar relative to the U.S. dollar; government regulation, including environmental legislation; health and safety; Indigenous reconciliation in Canada; information technology and cyber security; labour availability; logistics availability and cost; natural and manmade disasters and climate change; residual fibre revenue; and tax exposures.

Non-GAAP Measures:

This presentation makes reference to certain non-GAAP measures, such as Adjusted EBITDA, Adjusted EBITDA margin, Net debt to invested capital ratio, Available Liquidity and Annualized return on capital employed which are used by the Company and certain investors to evaluate operating performance and financial position. These non-GAAP measures do not have any standardized meaning prescribed by IFRS and are therefore unlikely to be comparable to similar measures presented by other issuers. Definitions and reconciliations of terms can be found in Interfor's annual and quarterly MD&A which are available on www.interfor.com and under Interfor's profile on www.sedarplus.ca.

Currency:

All financial references in this presentation are expressed in Canadian dollars, unless otherwise noted.

Interfor **Investment Highlights**

Pure-Play Exposure to North American Lumber

Structurally Strengthened To Withstand The Bottom Of The Cycle

Regionally Diversified Platform Provides Stability

Top Quartile Margin Producer

Clear Capital Allocation Priorities

Positioned for Long-Term Fundamentals

Interfor at a Glance

60+

Years serving global markets

3rd Largest North American Lumber Producer

4.5 Bbf of Lumber Capacity⁽¹⁾

24 Sawmills⁽¹⁾

1 Reman Facility

1 I-Joist Plant

Revenues By Source

Diversified Into **5** Distinct Operating Regions

BC Interior US Northwest Eastern Canada
US Southeast Atlantic Canada

Compelling Valuation

Implied trading value is ~25% of replacement cost and ~60% of precedent North American lumber M&A

Trading well below long term average of 1.1x. Limited consideration for market recovery

(1) Precedent North American lumber transactions.

(2) Greenfield cost estimate based on industry sources, public announcements and Company information.

(3) Market and book value prices per share as of each quarter-end, except 2026 book value as of June 30, 2026, and market price as of August 4, 2026.

Interfor Manufacturing Operations

BC INTERIOR 750 MMBF

- > 3 dimension mills; 1 remanufacturing facility (Sumas, WA)
- > Douglas-Fir, Hem-Fir, SPF, Cedar
- > Efficient, modern, low-cost, well-capitalized

US NORTHWEST 550 MMBF

- > 3 stud mills
- > Hem-Fir, Douglas-Fir
- > Efficient, modern, low-cost, well-capitalized

EASTERN CANADA ⁽¹⁾ 730 MMBF

- > 2 stud mills; 3 dimension mills; 1 I-Joist facility
- > SPF
- > Efficient, well-maintained and low-cost

ATLANTIC CANADA 350 MMBF

- > 2 stud mills
- > Woodlands Management Division
- > ESPF
- > Efficient, modern, low-cost, well-capitalized

US SOUTH 2,095 MMBF

- > 11 dimension mills
- > Southern Yellow Pine
- > Upside from recent completion of multi-year capex investments

**4.5 Billion board feet of
lumber production capacity,
with operations in all major
timber baskets**

Structurally Strengthened
Through the Cycle

Top Quartile Operating Margins & **Focus on Return on Capital**

Operational excellence focus, disciplined capex program and portfolio optimization driving superior margins

Improvement in relative performance vs. peers in recent years; driven by balanced capital deployment

LUMBER SEGMENT AVG. ADJ. EBITDA MARGINS (C\$/MBF)⁽¹⁾⁽²⁾

AVERAGE EBIT RETURN ON CAPITAL EMPLOYED (%)⁽³⁾

(1) Based on Average Adj. EBITDA Margins for 2020-Q2'2026

(2) Peers include Canfor North America, Weyerhaeuser and West Fraser; lumber segments only, adjusted to reflect duties paid, non-cash write-downs related to acquisitions and FX for \$US companies.

(3) Peers include West Fraser and Canfor

Pure Play Lumber **Exposure to Rising Prices**

Through-the-cycle margins support ~\$400 MM trend EBITDA, representing considerable upside from current levels, translating into ~\$200 MM of levered Free Cash Flow

LUMBER SEGMENT AVG. ADJ. EBITDA MARGINS (C\$/MBF)

EBITDA sensitivity:
approximately \$50 MM
for every US\$10/MBF
change in lumber prices

Production Trends

Production up more than 6x since 2008, positioning Interfor as a top North American lumber producer

LUMBER PRODUCTION VOLUMES (MMBF)

Interfor Regional Operating Margins

Margins are similar amongst the various regions over time, but achieved via different routes and at different points in the cycle, providing less variability in earnings

INTERFOR CASH MARGIN BY REGION (C\$/MBF) ⁽¹⁾

Balanced Capital Allocation & **Cycle-Aligned Capital Structure**

Capital **Allocation** Priorities

Balance Sheet Strength

Maintain strong liquidity through the cycle; prioritize deleveraging after a period of elevated strategic investment and M&A growth.

High-Return Reinvestment

Fund maintenance and select internal projects that improve cost competitiveness and long-term returns.

Disciplined Portfolio Management

Pursue opportunistic asset optimization to realize value and redeploy capital into portfolio or balance sheet strength.

Shareholder Returns Over the Cycle

Return excess capital when leverage and market conditions allow.

Leverage Profile

Deleveraging is Interfor's number-one capital allocation priority. With the heavy investment and growth cycle complete, we are driving net debt-to-capitalization to 20% or below before deploying capital into additional return opportunities

HISTORICAL NET DEBT - TO - INVESTED CAPITAL RATIO (%)⁽¹⁾

Cycle-Aligned Capital Structure

Efficient and flexible capital structure. Combination of long-term, laddered maturity, fixed-rate debt and flexible, variable-rate revolving facility

CAPITAL STRUCTURE AS OF JUNE 30, 2026 (\$MM)

Cash	\$33
Debt - Senior Secured Notes	\$699
Debt - Revolving Term Line ⁽¹⁾	\$121
Debt - Term Loan	\$30
Net Debt	\$817
NET DEBT/INVESTED CAPITAL (%)	36.7%
Available Liquidity	\$442

DEBT MATURITY SCHEDULE (\$MM) ⁽¹⁾

⁽¹⁾ Revolving Term Line matures in 2029. Excluded from Debt Maturity Schedule.

Capital Expenditures

With strategic capital expenditure plan complete, focus will be on deleveraging to targeted levels

CAPITAL EXPENDITURES (\$MM)

A large industrial warehouse with a high ceiling and steel beams. The floor is covered with numerous stacks of light-colored lumber, organized in neat piles. The stacks are secured with green straps. The background shows the structural elements of the warehouse, including corrugated metal walls and a complex roof system.

Positioned For Long-term Market
Fundamentals

Lumber Demand

KEY DEMAND DRIVERS

Repair & Remodel

- Housing stock > 43 years old on average
- Household balance sheets in good shape

New Home Construction

- Strong fundamentals, despite near-term affordability headwind
- More than a decade of underbuilding
- Favorable demographics

Industrial / Commercial

- Steady demand in-line with overall economic activity

NORTH AMERICAN LUMBER DEMAND BY END-USE

End Market Demand

Underlying housing fundamentals remain compelling. US housing starts have held relatively stable despite affordability headwinds

US HOUSING STARTS (MM - SEASONALLY ADJUSTED)

Existing home sales serve as a key read-through for repair & remodel spend, which will benefit from a decline in mortgage rates

Lumber Supply

Measured supply growth in the US South, more than offset by declines in other regions

NORTH AMERICAN LUMBER PRODUCTION (BBF)

Offshore Imports
Mostly from Europe. Declining due to higher log costs, and transportation costs

US – South
Measured growth (five-year CAGR of only 1%), limited by labour availability, long equipment lead times and residual off-take

Canada – British Columbia
Ongoing permanent reductions due to impacts of Mountain Pine Beetle forest infestation (~55% decline in production since 2016)

US – West
Relatively stable; good balance between available timber supply and manufacturing capacity.

Canada – East
Declining due to timber supply and residual offtake

Lumber Prices

Lumber pricing remained volatile in 2025 amid ongoing trade-policy uncertainty; however, supply rationalization has contributed to firmer pricing in 2026

NORTH AMERICAN BENCHMARK LUMBER PRICES (US\$/MBF)

Residual Off-take

While timber supply often receives the greatest attention, the availability of competitive end markets for residual fibre is increasingly becoming a constraint on lumber production and future industry growth.

US PAPER AND PACKAGING CAPACITY
(MM SHORT TONS)

PULP AND PAPER MILL CLOSURES
(2023-2025)

Duties & Tariffs

Limited exposure to duties or tariffs with ~65% of lumber production based in the US

U.S. DUTY & TARIFF RATES APPLICABLE TO INTERFOR ⁽¹⁾

INTERFOR SOFTWOOD LUMBER DUTIES HIGHLIGHTS

~20% of Shipments

Exposed to Duties

Shipments into the US from Canada as a % of Interfor's total company-wide shipments

US\$706 MM

Duties Paid

Duties paid by Interfor to the US Government; ~90% are off-balance sheet

(1) Reflects final duty rates announced by the US Department of Commerce (DOC) on Dec 28, 2017, Nov 24, 2020, Jan 10, 2022, Aug 4, 2022, July 27, 2023, August 19, 2024 and August 12, 2025, respectively, except for 2026-2027 which reflects preliminary duty rates announced on April 9, 2026 and are expected to become final in H2 2026.

Positive ESG & **Carbon Story**

Building Value **Sustainably**

Building value through sound environmental, social and governance practices.

A Sustainability Strategy to Invest in our Future.

Long-standing strategy of geographic lumber diversification, quality products & services.

Commitment to investing in our people, operations and sustainable forestry.

Executing our ESG strategy through transparency and accountability.

OUR VISION & PURPOSE

Embracing a culture of sustainability excellence to advance sustainable forest management practices, resilient operations, employee well-being and growth, and renewable wood products as part of the climate solution.

OUR GOALS

Safety

Our goal is that everyone returns home safely

People

Our goal is to build value for our people through opportunities for development and growth

Climate

Our goal is to have a positive influence on the environment and climate
